

RAY BACQUIE P.ENG., AVS
VICE PRESIDENT
TRANSPORTATION

Announcing the Appointment of Ray Bacquie to Vice President of Transportation

11.8.10

It is with great pleasure we announce that Ray Bacquie has joined the Cole Engineering Group team as Vice President of Transportation. Ray brings 25 years of experience in all areas of transportation planning and design. He will be leading a team providing services in Transportation Master Plans, Environmental Assessments, Detail Design, Traffic and Transit Planning, Active Transportation, Traffic Operations and Road Safety.

"We are excited to have Ray on board - he shares our enthusiasm for engineering excellence, unparalleled client service and is a strong team player; he's a great fit here." Scott R. Cole, CEO.

Previously Ray served as Vice President of HDR/iTRANS for 13 years, and held management positions with the Region of Peel and Metropolitan Toronto. Ray's focus has been developing transportation infrastructure solutions that balance operational needs and community objectives. He has worked for most municipalities within southern Ontario, and has represented municipalities province-wide as President and Board Member of the Ontario Traffic Conference.

Kim Nystrom will continue to lead the Traffic Business Unit within the division. Together Ray and Kim offer 55 years of experience in traffic impact and expert evidence.

With our growing company of 155 technical and support staff, we look forward to providing a full scope of infrastructure solutions to our clients.
