

Our New Home-Away-From-Home

05.25.10

Bursting out at the seams at our previous office location, the Cole Engineering Team moved lock, stock and barrel to our new and exclusive building located on Valleywood Drive in Markham, Ontario. Extensive exterior refurbishments and integral interior renovations were completed on schedule prior to the exodus that took place in May of this year.

Our new location is a 2 storey 55,000 sq. ft office space that comfortably shelters 148 staff, with room to grow, and is equipped with loading bays and warehouse storage for our Construction and Environmental Field Services Groups.

Experience Enhancing Excellence
