As an equal opportunity employer, we offer a first class working environment and highly competitive compensation packages including performance bonus opportunities.

Qualified, professionally registered individuals and industry leaders with experience in the categories listed below may apply online to: **Careers@ColeEngineering.ca**.

Intermediate-Senior Hydrogeologist

Cole Engineering Group is a mid sized multi-disciplinary engineering firm located in Markham (Hwy 404 and Hwy 7) specializing in land development, transportation, water resources, and municipal infrastructure. The company is currently seeking a Hydrogeologist to provide technical support in the Environmental Management Group. The vision for the Environmental Management Group is to provide high-end, technical services in the fields of natural sciences, engineering, planning and development, and to become one of the leading environmental engineering groups within Ontario.

Candidate must have a strong technical background, good problem solving abilities and be able to work in a team environment. Candidate should be comfortable using Aquifer Test Pro, Visual Modflow, Gint, Microsoft Office and be able to work in a challenging consulting environment where both office and field responsibilities are equally important. On-going projects include: Hydrogeological investigations, source water protection, contaminant transport, groundwater exploration, environmental management plans, and permits to take water.

Work may include but is not limited to:

- Coordination and management of multiple projects and technical resources
- Field work – drilling supervision, baseline water well surveys, sample collection; water level monitoring, environmental field inspections.
- Addressing and responding to public inquiries;
- Groundwater modeling;
- Compilation of Technical Reports; and
- Proposal Writing.

Cole Engineering recognizes that our strength is in the people we work with and provides competitive compensation, interesting opportunities, and a safe and supportive work environment.

Candidates interested in a position should forward CVs to: **careers@coleengineering.ca**
