

## **Project Manager, Transportation Planning**

These are exciting times for Cole Engineering Group Ltd., boasting a momentum and an energy that clearly differentiates us. We are an established company with a new vision in consulting services in Environmental Sciences and Engineering led by top industry leaders. We have grown to over 150 multi-disciplinary professional and technical staff supported by corporate administration and information technological services. If you are an engineering professional with abilities, talents and aspirations, we would like to hear from you.

Cole Engineering Group respects and celebrates the excellence of its staff and is proud of its ranking as one of the 50 Best Employers in Canada and, for a second year, the 50 Best Employers in the GTA, by Queen's Centre for Business Venturing, Hewitt Associates, and the Globe and Mail. As an equal opportunity employer, we offer a first class working environment and highly competitive compensation packages including performance bonus opportunities.

Qualified, professionally registered individuals and industry leaders with experience in the category listed below may apply online to: [Careers@ColeEngineering.ca](mailto:Careers@ColeEngineering.ca).

### **PROJECT MANAGER, TRANSPORTATION PLANNING**

We are looking for creative individuals with a proven track record to perform and manage a wide range of transportation planning projects. Applicants will have demonstrated an ability to carry out projects through all project stages using your ability to understand client needs. They will be able to manage and deliver projects within budget, meet project deadlines and work well within a team environment and independently. The applicant will be able to conduct analysis and directly liaise with clients, government officials and approvals agencies. Project management experience is a definite asset. Qualifications include:

#### **Qualifications include:**

- Minimum 8-10 years transportation planning experience preferred
- PEO registered P.Eng, (or eligible), CET or MCIP preferred
- Solid experience in traffic engineering and transportation planning.
- Strong technical, leadership, oral and written English, and communication skills.
- Experience in Project Management, client services and interpersonal skills to lead technical teams preferred.
- Experience with active transportation planning would be an asset.
- Knowledge of traffic analysis techniques (HCS, Synchro, VISSUM, Paramics), and travel demand forecasting applications (EMME/2, EMME/3, TransCad)
- Relevant Canadian experience

This job offer has an immediate responsibility and is 'career based' appropriate for established engineers and planners looking for a leadership role in the company. Interested candidates should email their resume to: [careers@coleengineering.ca](mailto:careers@coleengineering.ca)
