

Transit Planning & Design Business Unit Leader

These are exciting times for Cole Engineering Group Ltd., boasting a momentum and an energy that clearly differentiates us. We are an established company with a new vision in consulting services in Environmental Sciences and Engineering led by top industry leaders. We have grown to over 220 multi-disciplinary professional and technical staff supported by corporate administration and information technological services. If you are an engineering professional with abilities, talents and aspirations, we would like to hear from you.

Cole Engineering Group respects and celebrates the excellence of its staff and is proud of its ranking as one of the 50 Best Employers in Canada and, for a second year, the 50 Best Employers in the GTA, by Queen's Centre for Business Venturing, Hewitt Associates, and the Globe and Mail. As an equal opportunity employer, we offer a first class working environment and highly competitive compensation packages including performance bonus opportunities.

Qualified, professionally registered individuals and industry leaders with experience in the category listed below may apply online to: Careers@ColeEngineering.ca.

TRANSIT PLANNING & DESIGN BUSINESS UNIT LEADER

We are seeking a self motivated Business Unit Leader to develop a Transit Planning and Design practice, including a team of transit planners, engineers, and designers. The successful candidate will be responsible for building client relationships, business development, and managing road and transit planning and design projects. The ideal candidate will be a registered professional engineer in Ontario with a degree in civil engineering and at least 15 years of experience in route planning, transit, environmental assessments and design. The candidate will need to have demonstrated abilities in effective communication and project management. As part of our technical leadership group, the successful candidate will work cooperatively with other Business Unit Leaders toward the goals of CEG.

Qualifications include:

- Minimum 15 years transit experience.
- PEO registered P.Eng.
- Solid experience in transit planning and operations design, including transit infrastructure and station design.
- Strong technical, leadership, oral and written English, and communication skills.
- Proven track record in Project Management, client services and interpersonal skills to lead strong technical design teams.
- Knowledge of road and transit design standards and design applications.
- Relevant Canadian experience a must.
- Experience with green initiatives, and LEED certification considered an asset.

This job offer has an immediate responsibility and is 'career based' appropriate for established engineers and professionals looking for a leadership role in the company. Interested candidates should email their resume to: careers@coleengineering.ca
